

Dynamic Change recognised as one of the fastest growing technology companies in the UK

Dynamic Change, which has received investment from Midven's HSBC and AGF funds , has been recognised as one of the fastest growing technology companies in the UK with an award from the Deloitte Technology Fast 50 program. The Company was ranked 33rd in the UK and 2nd in the Midlands.

The Company, based at the Keele University Science Park, is a leading supplier of web-based performance management software. Its Performance Accelerator product is used throughout the NHS, by housing associations and charities. The software allows its customers to manage the complexity of strategic objectives, performance, budgets and risk within one framework taking a strategic view and reporting progress against agreed baselines. This is particularly valuable to the public sector in managing its performance against key government targets, and it is these requirements that have underpinned the company's growth.

About the Deloitte Technology Fast 50

The Deloitte Technology Fast 50, one of the UK's foremost technology award programmes, is a ranking of the country's 50 fastest-growing technology companies based on percentage growth over five years. Now in its eleventh year, the Fast 50 programme honours business growth, technological innovation and UK entrepreneurial spirit.
